

CONTENTS

Introduction - Energy

- Energy in Brief 22

1. World Energy Sector 23

- World Energy Scenario 24-26
- World Fuel Supply and Consumption 27-34
- World Power Generation Scenario 35-38
- Sector-wise World Energy End Users 39-42

2. India Energy Sector 43

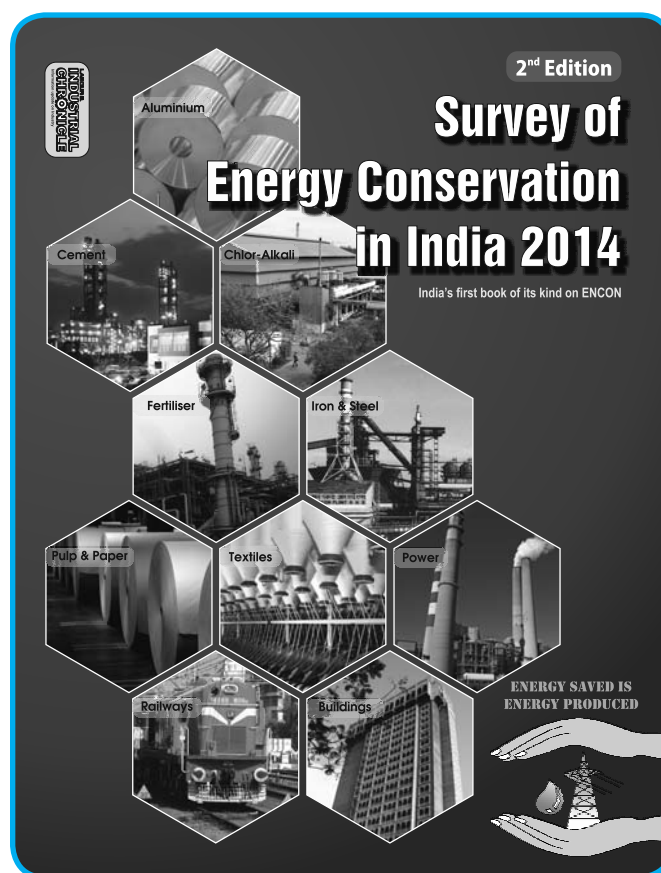

- India Energy Scenario 44-50
- Coal - Dominates India's Energy Mix 51-55
- Indian Oil Sector Highly Import Dependent 56-62
- Natural Gas - Fuel of the 21st Century 63-69
- Indian Power Sector
Key Driver for Economic Growth 70-80

3. Energy Conservation 81

- Genesis of Energy Conservation in USA 82-85
- Need for Energy Conservation in India 86-88
- Energy Savings Potential in India 89-91
- Government initiatives
for Energy Conservation: 1973-2014 92-98
- Salient Features of Energy Conservation
Act 2001 and its Amendment in 2010 99-101
- BEE - Central Nodal Agency 102-105
- Four CEOs at BEE, from 2002-2014 106-107
- SDAs - State Level Nodal Agencies 108-113
- CIIGBC - Key Player in
India's Energy Efficiency Movement 114-116
- CII 13th National Awards
for Excellence in Energy Management 117-121
- CIIGBC EE Summit - Right
Platform to share, display and network 122-123
- National Organisations Promoting
Energy Efficiency in India 124-129

4. Energy Efficiency Measures 131

- BEE Steps to promote Encon and
EE Measures, 2002-2013 132-137
- Changes in the Rules and
Regulations under EC Act, 2002-2010 138-140

- Thrust Area 01: IIPEC
Effectively promoted Energy Efficiency among DCs 141-143
- 3L Programmes Enlightening Professionals 144-145
- Thrust Area 02: Demand Side Management (DSM)
Key to Improving Energy Efficiency 146-151
- Utility Driven DSM Activities in India 152-158
- Bachat Lamp Yojana for Promoting
EE Lighting - Stuck in Midstream 159-166
- Cluster Approach to
Promote Energy Efficiency in SMEs 167-172
- Case Study: EE in Rajkot Foundry Cluster
TERI Develops DBC Technology and
Capacity of BDS for Foundry Industry 173-176
- Thrust Area 03: S&L Programme
Creating New Market for EE Appliances 177-185
- Star Labelled Refrigerators and
ACs lead EE Appliances Market 186-192
- Thrust Area 07: Manuals and Codes
Best Practice Manuals, Case
Studies and Codes for Seven Equipments 193-199

5. Energy Efficiency in Buildings 201

- Thrust Area 04: EE in Buildings and Establishment
Having Huge Energy Savings Potential 202-207
- Some EE Solutions for Buildings 208

- Case Study – Godrej Bhavan
Saves 28% energy through EE retrofits in Building 209-211
- Star Rating Programme for
Energy Efficient Commercial Buildings 212-216
- Thrust Area 05: ECBC
New Buildings need to be ECBC
Compliant for Energy Efficiency 217-224

6. Energy Professionals and ESCOs 225

- Thrust Area 06: Professional Cert and Accreditation
BEE created about 11000 CEMs, CEAs 226-230
- Energy Managers - Responsibilities and Duties 231
- Energy Auditors
Responsibilities, Duties and Guidelines 232
- BEE awarded accreditation to
Energy Auditors thrice, 2005, 2013 and 2014 233-245
- Thrust Area 10: Delivery Mechanism for
EE Services - ESCO Industry taking shape in India 246-254

7. Energy Management 255

- Energy Audit - First Step to Energy Conservation 256-258
- List of Instruments used for Energy Audit 259
- Tips for Electrical Energy Savings in
Industrial Equipments 260-268
- Tips for Energy Saving in Buildings 268
- Tips for Thermal Energy Savings in
Industrial Equipments 269-272

8. NAPCC - NMEEE 273

- National Action Plan on
Climate Change for Sustained Growth 274-276
- Implementation Status of
Eight National Missions under NAPCC 277-282
- National Mission for Enhanced
Energy Efficiency to Reduce Energy Intensity 283-286

9. PAT Scheme 287

- PAT to Create Market for Energy Efficiency 288-295
- PAT Design Steps in Retrospect 296-303
- PAT – A Blessing in Disguise 304-305
- ESCert – Heart of the PAT Scheme 306-308
- ESCerts in India - Question & Answers 309
- Existing ESCert Schemes in the World 310-312

10. Industries under PAT Scheme 313

- Aluminium Industry and SEC Targets 314-316
- Cement Industry and SEC Targets 317-325

- Chlor – Alkali Industry and SEC Targets 326-329
- Fertiliser Industry and SEC Targets 330-333
- Iron & Steel and SEC Targets 334-339
- Pulp and Paper Industry and SEC Targets 340-344
- Textile Industry and SEC Targets 345-352
- Thermal Power Plants and SEC Targets 353-362

11. Technical Features 363

- Negligence in Electrical Energy Conservation
- by BG Shankar, MD, AGS-Energy Conservation 364-365
- Rockwell Automation Industrial GreenPrint™ Methodology
Leveraging Industrial Energy Optimisation
For Higher Profitability - by Phil Kaufman 366-369
- Bio-based Lubricants
Road to Conserve and Improve Energy Efficiency
- by YG Ghaisas, CMD, Yashprabha Group 370-373
- Energy Audit and Accounting
The way to reduce Power Wastages
- by Haren Shah, Sr Mktg Executive, Mecor 374
- Harmonics - A Power Quality Problem
- by Haren Shah, Sr Mktg Executive, Mecor 375-376
- EnMS Requirements under ISO 50001
- by P Balasubramanian, CMD, Separation Engrs 377-380
- Energy Management Standard ISO 50001
- by P Balasubramanian, CMD, Separation Engrs 381-382
- Benefits of Power Optimisation
- by BG Shankar, MD, AGS-Energy Conservation 382

12. Legal Framework 383

- Gazette - The Energy Conservation Act, 2001 384-404
- The EC (Amendment) Act, 2010 405-408
- Notification for Submission of Report by DCs 409-414
- Notification for Energy
Intensive Industries and Other Establishments 415-417
- PAT Rules, Forms A to D 418-454

13. Listings - EE Equipments/Services 455

- Product Category-wise
Listing of EE Equipments and Services 458-464

14. Directory 465

- BEE Accredited 150 Energy Auditors 468-476
- BEE Accredited 137 ESCOs 481-491
- Central and State Level Nodal Agencies 493-496

ENERGY IS LIFE, CONSERVE IT
