

Index of Graphs/Infographics

1. World Energy Sector

- **World Energy Scenario**
 - World Energy Consumption 1992-2040 25
 - Energy Consumption in US, China and India, 1990-2040 26
- **World Fuel Supply and Consumption**
 - World Energy Consumption by Fuel Type, 1990-2040 29
 - World Petroleum and Other Liquids Production, 2010-2040 31
 - World Coal Consumption by Country Grouping, 2010-2040 32
 - World Increase in Natural Gas Production by Country Group, 2010-2040 33
 - World Natural Gas Consumption by End-Use Sector, 2010-2040 33
- **World Power Generation Scenario**
 - World Net Power Generation by Energy Source, 2010-2040 36
 - World Operating Nuclear Power Generation Capacity by Country Grouping, 2010 and 2040 38
 - World Electricity Generation from Renewable Energy Sources 2010 and 2040 38
- **Sector-wise World Energy End Users**
 - World Industrial Sector Delivered Energy Consumption, 2010-2040 39
 - World Transportation Sector Delivered Energy Consumption, 2010-2040 40
 - World Residential Sector Delivered Energy Consumption, 2010-2040 41
 - World Commercial Sector Delivered Energy Consumption, 2010-2040 42

2. India Energy Sector

- **India Energy Scenario**
 - Estimated Coal Reserves 45
 - Estimated Lignite Reserves 45
 - Estimated Crude Oil Reserves in India 45
 - Estimated Natural Gas Reserves in India 46
 - CAGR of Energy Production in India by Primary Sources From 1970-71 to 2011-12 46
 - Source-wise Estimated Potential of Renewable Power in India 47
 - Domestic Production of Petroleum Products in India 47
 - Sector-wise Consumption of Petroleum Products 48
 - Sector-wise Consumption of Electricity (Utilities) 48

- **Indian Oil Sector Highly Import Dependent**
 - Percentage Share of Refineries in India's Total Refining Capacity 60
- **Natural Gas - Fuel of the 21st Century**
 - Estimated Natural Gas Reserves in India 65
 - Sector wise Consumption of Natural Gas 67
- **Indian Power Sector – Key Driver for Economic Growth**
 - Installed Generation Capacity from 1950 to 2013 73
 - Installed Generating Capacity as on June, 2013 75
 - India Power Consumption Pattern 2012-13 76

3. Energy Conservation

- **Need for Energy Conservation in India**
 - Category-wise Power Consumption in 1947 and 2012-13 87

4. Energy Efficiency Measures

- **BEE Steps to promote Encon and EE Measures, 2002-2013**
 - EE Programmes of BEE 133
- **Thrust Area 02: Demand Side Management (DSM) Key to Improving Energy Efficiency**
 - ULBs Energy Demand 149
- **Utility Driven DSM Activities in India**
 - Stakeholders in the design of DSM initiatives 154
 - Equipment profile for DSM rebate programmes in India 155
- **Bachat Lamp Yojana for Promoting EE Lighting - Stuck in Midstream**
 - BLY Role Players 161
- **Cluster Approach to Promote Energy Efficiency in SMEs**
 - SAMEEEKSHA - A TERI initiative for SMEs 172
- **Thrust Area 03: S&L Programme Creating New Market for Energy Efficient Appliances**
 - Comparative Label Features 178
 - S&L Journey so far 181
- **Star Labelled Refrigerators and ACs lead EE Appliances Market**
 - Energy Saving Label - Refrigerators 186
 - Energy Saving Label - Air Conditioners 188
 - Changes in the New BEE Star Label 191

- **Thrust Area 07: Manuals and Codes**
Best Practice Manuals, Case Studies and Codes for Seven Equipments
- Electricity Consumption in Motor driven systems in India 195
- Electric Motors and their Classification 195

5. Energy Efficiency in Buildings

- **Thrust Area 04: EE in Buildings and Establishments – Having Huge Energy Savings Potential**
- Commercial Floor Space Distribution 205
- **Case Study – Godrej Bhavan**
Saves 28% energy through EE retrofits in 42 years old Building
- Annual Electricity used and Electricity Cost for Godrej Bhavan (2009-2012) 211
- **Star Rating Programme for Energy Efficient Commercial Buildings**
- Star Rating Label for Buildings 212
- **Thrust Area 05: ECBC**
New Buildings need to be ECBC Compliant for Energy Efficiency
- Climate Zone Map of India 218
- Stakeholders 220
- Buildings Energy Performance Assessment as per ECBC 221
- Building System and Energy Code Compliance Options 224

8. NAPCC - NMEEE

- **National Action Plan on Climate Change for Sustained Growth**
- NAPCC Missions 275
- **Implementation Status of Eight National Missions under NAPCC**
- Climate Change Cell on Himalayan Ecosystem 279
- NMSKCC Objectives 281
- **National Mission for Enhanced Energy Efficiency to Reduce Energy Intensity**
- NMEEE - Four New Initiatives 284

9. PAT Scheme

- **PAT to Create Market for EE**
- NMEEE 288
- Perform, Action & Trade (PAT) Mechanism 289
- Sectoral Share in Energy Saving Target (%) 2012-15 291
- Map: State-wise distribution of 478 Designated Consumers (DCs) under PAT Scheme 292

- PAT Scheme Phases 292

● PAT Design Steps in Retrospect

- PAT Steps 296
- PAT Activity Flow Sheet 298
- Normalisation Area 300
- Specific Energy Consumption (SEC) 301

● PAT - A Blessing in Disguise

- PAT and Triple Bottom Line 304
- SEC Abatement Curve for Cement Plant 305

● ESCert – Heart of the PAT Scheme

- ESCerts Institutional Design 306
- Concept of Target, Compliance, ESCerts and Penalty 307
- Stakeholders 307

10. Industries under PAT Scheme

● Aluminium Industry

- Aluminium - SEC and Targets 315

● Cement Industry

- Grouping of DCs 318
- Exp - Input and Output for a Typical Cement Plant 319
- Cement - SEC and Targets 320

● Chlor – Alkali Industry

- Industry-wise Consumption of Caustic Soda 326
- Industry-wise Consumption of Soda Ash 326
- Schematic view of membrane cell reduction process 327
- Chlor Alkali - SEC and Targets 328

● Fertiliser Industry

- Fertilisers - SEC and Targets 332

● Iron & Steel

- Iron & Steel - SEC and Targets 336

● Pulp and Paper Industry

- Pulp & Paper - SEC and Targets 342

● Textile Industry

- Broad Structure of Indian Textile Industry 347
- Textiles - SEC and Targets 349

● Thermal Power Plants

- Thermal Power Plants - SEC and Targets 355

11. Technical Feature

● Bio-based Lubricants Road to Conserve and Improve Energy Efficiency

- Super Efficiency Hydraulic Fluids 371
